*A New Portable Typewriter
for the office*

HERE at last is a typewriter which any standard machine operator can use interchangeably with her present typewriter. It has the same *standard 4-bank keyboard*, the same time-saving devices and the same light touch and speed. But she can carry it anywhere about the office—and home if necessary.

It will pay every office to have a Corona Four on hand for emergencies.

National Advertisers Buy Offset Color Lithography in Louisville

THESE four pages tell effectively of the successful effort to establish a Color Lithograph Service in Louisville for advertisers everywhere who seek the best in new methods of commercial publicity.

For richness of tone values, for fidelity of reproduction, for attractiveness of results, Offset Color Lithography is far out in front in the Graphic Arts.

That Louisville's representatives in this line are appreciated both at home and abroad is attested by these illustrations selected from recent production. Ours is one of the few houses in the country equipped for this class of Color Work.

If you are interested in high grade business literature in quantities, confer with our Sales Department.

(Below) Front cover of 1,500,000 costume guides for Real Silk Hosiery using color chart of the Taylor System of Color Harmony, New York City.

A cleansing cream of rare quality that, having no affinity for the skin, simply loosens and absorbs the grit and dirt from the pores, leaving the skin fresh, clean and healthy. It has a delicately pink flesh color and a texture so soft and smooth that women simply delight in using it.
